

BAROMÈTRE DES PRATIQUES GREEN IT DES ENTREPRISES EN FRANCE

L'Alliance Green IT, en partenariat avec l'ADEME, Ecologic et OpinionWay, réalise le troisième baromètre Green IT national neutre et indépendant. L'étude mesure le niveau de maturité des entreprises françaises en terme de pratiques numériques éco-responsables et propose d'identifier des leviers d'amélioration au travers de 26 indicateurs clés.

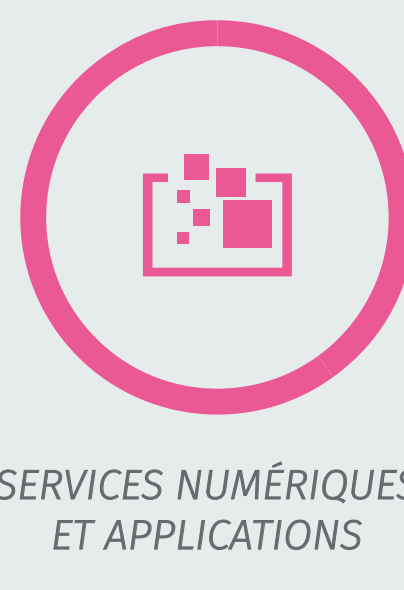

LES 8 THÉMATIQUES GREEN IT
